Customs Clearance

We are proud to have more than 40 years of experience and having experienced colleagues at the customs offices of Imam Khomeini Airport, Shahryar, Bandar Abbas, Gharb, Bandar Anzali, Khorramshahr and Bushehr to carry out the entire process of clearing your goods in the fastest and easiest way possible.

Packaging

Packaging of goods is one of the most important stages of shipping, and if the packaging of goods is inconsistent with international regulations, it can cause irreparable damage.

The packaging of the goods must be under the desired international laws, which have different rules for each mode of transportation.

Dangerous goods packaging
Perishable goods packaging
Oversize packaging

Warehousing

Warehousing is one of the logistics processes in the supply chain, which includes the physical storage of inventory for sale or distribution of goods. Warehouses are used by various types of businesses that need to temporarily store products in bulk before shipping them to other locations or individually for end consumers.

For example, many e-commerce businesses purchase products in bulk from their suppliers, who ship them to their warehouse for storage. When the final customer registers his order from the e-commerce site, the service provider selects and packages the product from the warehouse and sends it directly to the customer.

Therefore, Rahavard Company is proud to be one of the top service providers in the field of supply chain (logistics) with more than 4 decades of experience and having an experienced team with more than 20 years of experience in this field with the highest quality and most modern warehousing methods, and provide distribution of goods to its customers.
